

## Overview

Create or update product unit of measures, and get product unit of measures data.

## Allowed Requests

POST, PUT, GET, DELETE

## Post Requests

### Required Fields

```
product_id
unit_of_measure_id
factor
```

### Optional Fields

```
default_pick
default_receive
default_work
default_stock
```

### Special Fields

The `product_id` should belong to an existing product. You can get the ids for products by doing a GET on the accounts endpoint at

`https://<company_name_here>.flowtrac.com/api/products`

The `unit_of_measure_id` should belong to an existing unit of measure. You can get the ids for unit or measures by doing a GET on the accounts endpoint at

`https://<company_name_here>.flowtrac.com/api/unit-of-measures`

`default_pick` must be set to Yes or No.

`default_receive` must be set to Yes or No.

`default_work` must be set to Yes or No.

`default_stock` must be set to Yes or No.

## Minimal Example

```
curl -X POST -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "product_id" : "00000000-0000-0000-0000-000000000000",
    "unit_of_measure_id" : "00000000-0000-0000-0000-000000000000",
    "factor" : "1"
}' 'https://<company_name_here>.flowtrac.com/api/product-unit-of-measures'
```

## Complete Example

```
curl -X POST -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "product_id" : "00000000-0000-0000-0000-000000000000",
    "unit_of_measure_id" : "00000000-0000-0000-0000-000000000000",
    "factor" : "1",
    "default_pick" : "Yes",
    "default_receive" : "Yes",
    "default_work" : "Yes",
    "default_stock" : "Yes"
}' 'https://<company_name_here>.flowtrac.com/api/products'
```

# PUT Requests

## Non-nullable Columns

factor  
default\_pick  
default\_receive  
default\_work  
default\_stock

## Nullable Columns

Last Updated Date : 03/01/2023

## Example

```
curl -X PUT -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "factor" : "5",
    "default_pick" : "No",
    "default_receive" : "No"
}' 'https://<company_name_here>.flowtrac.com/api/product-unit-of-measures'
```

# GET Requests

## Filterable Columns

id	created
product_id	created_by
unit_of_measure_id	created_with
factor	edited
default_pick	edited_by
default_receive	edited_with
default_work	
default_stock	

## Example

```
curl -X GET -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json"
'https://<company_name_here>.flowtrac.com/api/product-unit-of-measures?default_pick-contains=Yes&default_receive-contains=Yes'
```

# DELETE Requests

## Example

```
curl -X DELETE -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "id" : "000000000-0000-0000-0000-000000000000"
}' 'https://<company_name_here>.flowtrac.com/api/product-unit-of-measures'
```
