curl -X POST -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "name" : "My Name",
    "active" : "Active",
    "office" : "817-522-3312",
    "cell" : "817-113-5252",
    "fax" : "817-123-4570",
    "email" : "contact@email.com",
    "title" : "Human Resources",
    "user" : "Yes",
    "browser_username" : "Username",
    "browser_password" : "Password",
    "device_username" : "User name",
    "device_password" : "password12",
    "allow_password_reset" : "Yes",
    "direct_hourly_cost" : "22",
    "overhead_hourly_cost" : "54.12",
    "badge" : "No",
    "force_password_reset" : "No",
    "license" : "EULA_20100601.pdf",
    "read_only" : "No"
}'
```

Last Updated Date : 03/01/2023

```
} 'https://<company_name_here>.flowtrac.com/api/contacts'
```

PUT Requests

Non-nullable Columns

name
active
badge
read_only
password_changed_on

Nullable Columns

office	device_password
cell	allow_password_reset
fax	last_session_hash
email	direct_hourly_cost
title	overhead_hourly_cost
type	polled
name	last_used
user	force_password_reset
user_auth	license
browser_username	locked
browser_password	account_id
device_username	default_address_id
default_locale_id	default_warehouse_id
	default_layout_type_id

Example

```
curl -X PUT -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "id" : "00000000-0000-0000-0000-000000000000",
    "active" : "InActive",
    "cell" : null,
    "user" : "No",
}' 'https://<company_name_here>.flowtrac.com/api/contacts'
```

Special Fields

active must be set to Active or InActive.

Last Updated Date : 03/01/2023

user must be set to Yes or No

badge must be set to Yes or No

read_only must be set to Yes or No

device_username and browser_username must be unique entries .

GET Requests

Filterable Columns

id	last_used
active	created
default_address_id	created_by
office	created_with
cell	edited
fax	edited_by
email	edited_with
title	force_password_reset
