

Overview

Create, read, and update warehouse bin type data.

Allowed Requests

POST, PUT, GET

Post Requests

Required Fields

```
type
include_in_onhand
include_in_available
include_in_activity
include_in_transferable
include_in_receiveable
```

Optional Fields

```
system
```

Minimal Example

```
curl -X POST -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type:
application/json" -d '{
    "type" : "Staging",
    "include_in_onhand" : "No",
    "include_in_available" : "No",,
```

Last Updated Date : 03/01/2023

```
        "include_in_activity" : "No",
        "include_in_transferable" : "No",
        "include_in_receiveable" : "No"
    }' 'https://<company_name_here>.flowtrac.com/api/warehouse-bin-types
```

Complete Example

```
curl -X POST -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "type" : "Staging",
    "include_in_onhand" : "No",
    "include_in_available" : "No",,
    "include_in_activity" : "No",
    "include_in_transferable" : "No",
    "include_in_receiveable" : "No"
    "system" : "No"
}' 'https://<company_name_here>.flowtrac.com/api/warehouse-bin-types
```

PUT Requests

Non-nullable Columns

```
type
include_in_onhand
include_in_available
include_in_activity
include_in_transferable
include_in_receiveable
```

Nullable Columns

```
system
```

Example

```
curl -X PUT -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "id" : "00000000-0000-0000-0000-000000000000",
    "include_in_available" : "Yes",
    "include_in_receiveable" : "Yes"
}' 'https://<company_name_here>.flowtrac.com/api/warehouse-bin-types
```

GET Requests

Filterable Columns

id	edited_by
active	edited_with
warehouse_id	unit_of_measure_id
bin	system
aisle	status
section	counted_audits
level	pending_audits
bin_location	order_number
separator	warehouse
warehouse_bin_type_id	type
max_quantity	include_in_available
created	include_in_onhand
created_by	include_in_transferable
created_with	include_in_receiveable
edited	

Example

```
curl -X GET -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json"
'https://<company_name_here>.flowtrac.com/api/warehouse_bins?bin=001&aisle=A'
```
