

Overview

Create or update work order lines, and get work order line data.

Allowed Requests

POST, PUT, GET

POST Requests

Required Fields

work_order_id
status
line_number
operation_type

Optional Fields

process_id
material_id
description
product_minutes
product_quantity

Minimal Example

```
curl -X POST -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "work_order_id" : "12345678-90AB-CDEF-FEDC-BA0987654321",
    "status" : "Open",
    "line_number" : "3",
    "Operation_type": "Material Pick"
}' 'https://<company_name_here>.flowtrac.com/api/pick-order-lines'
```

Complete Example

```
curl -X POST -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "work_order_id" : "12345678-90AB-CDEF-FEDC-BA0987654321",
    "status" : "Open",
    "line_number" : "3",
    "material_id" : "00001111-0000-1111-0000-111100001111",
    "description" : "example",
    "product_quantity" : "5"
}' 'https://<company_name_here>.flowtrac.com/api/work-order-lines'
```

PUT Requests

Non-nullable Columns

work_order_id
status
line_number
operation_type

Nullable Columns

description
process_id
material_id
product_minutes
product_quantity

Example

```
curl -X PUT -H "Cookie: user=USER_TOKEN_FROM_LOGIN" -H "Content-Type: application/json" -d '{
    "id" : "44445555-4444-5555-4444-5555-444455554444",
    "status" : "Picked",
    "description" : "Updated description"
}' 'https://<company_name_here>.flowtrac.com/api/work-order-lines'
```
